

**Easy to handle**

All PowerSource models feature forklift pockets and lifting hooks that allow you to move and install your generator **easily, quickly, safely** and without damaging your investment.

**Environmental friendliness**

Each model features **110% environmental containment** to prevent any spillage of fuel, oil, or coolant. In addition, PowerSource is equipped with Stage 2 engines. PowerSource achieves powerful high-output performance with low sound output, thanks to its innovative enclosure with sound-reducing insulation, optimized fan speeds and critical grade exhaust components.

**Reliable**

All PowerSource units feature powerful alternators with **AREP** excitation which gives best in class motor-starting capability. PowerSource features a heavy-gauge enclosure finished with a superior zinc rich primer and a durable powder final paint to provide the ultimate in corrosion resistance for long life and exceptional resale values. Finally, Doosan Infracore Portable Power **intensive endurance testing procedures** make PowerSource the most durable and reliable generators.

**Compact/Accessibility**

PowerSource generators are designed to be **compact and quiet**, and maximised performance while powering a full load in high temperature conditions. They are among the **lightest and smallest** of the industry thus reducing logistic and transport costs. Furthermore their large doors provide perfect accessibility and **facilitate serviceability** without compromising the compactness.

**Power Source Generators** | Product Range

**Doosan PowerSource**  
**Performance you can trust**

Doosan Infracore Portable Power is proud to present its complete new line of generators ranging from 20 to 500 kVA. **PowerSource** delivers performance you can trust to power critical applications and offers innovative features that **simplify operation, enhance serviceability, reduce downtime** and promote **environmental friendliness**. The reliability of these generators combined with the dedicated Doosan Infracore Portable Power service support make PowerSource the best choice for tough applications.

**Controls & Connections easy to use**

All controls and power connections are consolidated at the rear of the unit for enhanced **safety** and **convenience**. The PowerSource control panel is easy to use, allows high degree of customisation and lets users manage generator output and many other functions for optimal performance.

**Extended Runtime**

The combination of **high-capacity fuel tank** and **low fuel consumption** allows PowerSource generators to run at least 24 hours without refueling, ensuring uninterrupted power to your critical applications and thereby **reducing operating costs**.

**The PowerSource journey at Doosan starts here**

At Doosan Infracore Portable Power, you are not just buying a powerful piece of equipment. You are investing in the strength of Doosan Infracore Portable Power and its people. From engineers and factory technicians, to field representatives and your dealer, we support your purchase. We are committed to helping you realize maximum value job after job, day after day. Wherever you see a piece of Doosan Infracore Portable Power equipment, you'll know that all of Doosan Infracore Portable Power team is behind it.

Our industry-leading support system will keep you up and running for as long as you own your Doosan Infracore Portable Power equipment. Doosan Infracore Portable Power is committed to supporting the product throughout its life. We are dedicated to providing you and your business an invaluable source for product information, financial service, training, technical service bulletins, service, parts and more...

**More than generators**

**Warranty**  
Doosan Infracore Portable Power protects your purchase or lease with a 1 year or 2,000 hours warranty (whichever first occurs) on the entire package, 2 years or 4,000 hours on the alternator as well as 2 years or 4,000 hours on Mitsubishi and John Deere engines (G20 to G200) and 2 years or 2,000 hours on Cummins engines (G250 to G500).

**Aftermarket solution**

- Dealer stocking program for frequently-used parts
- Express availability for other parts
- Factory technical support (available at our manufacturing plant for all product lines)
- Supporting you and your dealer with troubleshooting expertise on difficult service problems

**Financial solutions**  
Financing and leasing options tailored to meet your individual business needs. Our streamlined loan application and credit approval process can quickly make your business plans a reality.

**Re-marketing services**  
Doosan Infracore Portable Power offers services to all its clients to help them to sales any of their used equipment by giving them a direct online connection to a vast inventory of pre-owned equipment, anywhere in the world.

Product improvement is a continuous goal at Doosan Infracore Portable Power. Specifications and design are subject to change without notice or obligation. All dimensions in mm.
